How to use STATA program on the Faculty Server

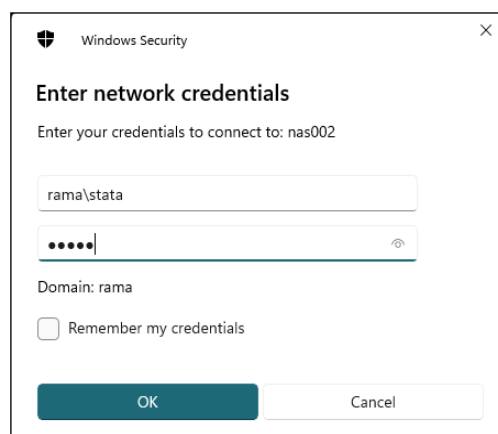

1. Connect the faculty internet through either "MU WIFI" or "RAMA WIFI" or "LAN", then go to search and type [\\nas002\stata](#)

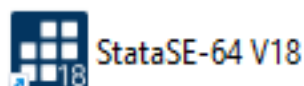

2. Username: **rama** \ followed by your employee identification code
Password: **Use the same password as for using HC iservices**

Or Username: **rama\stata**

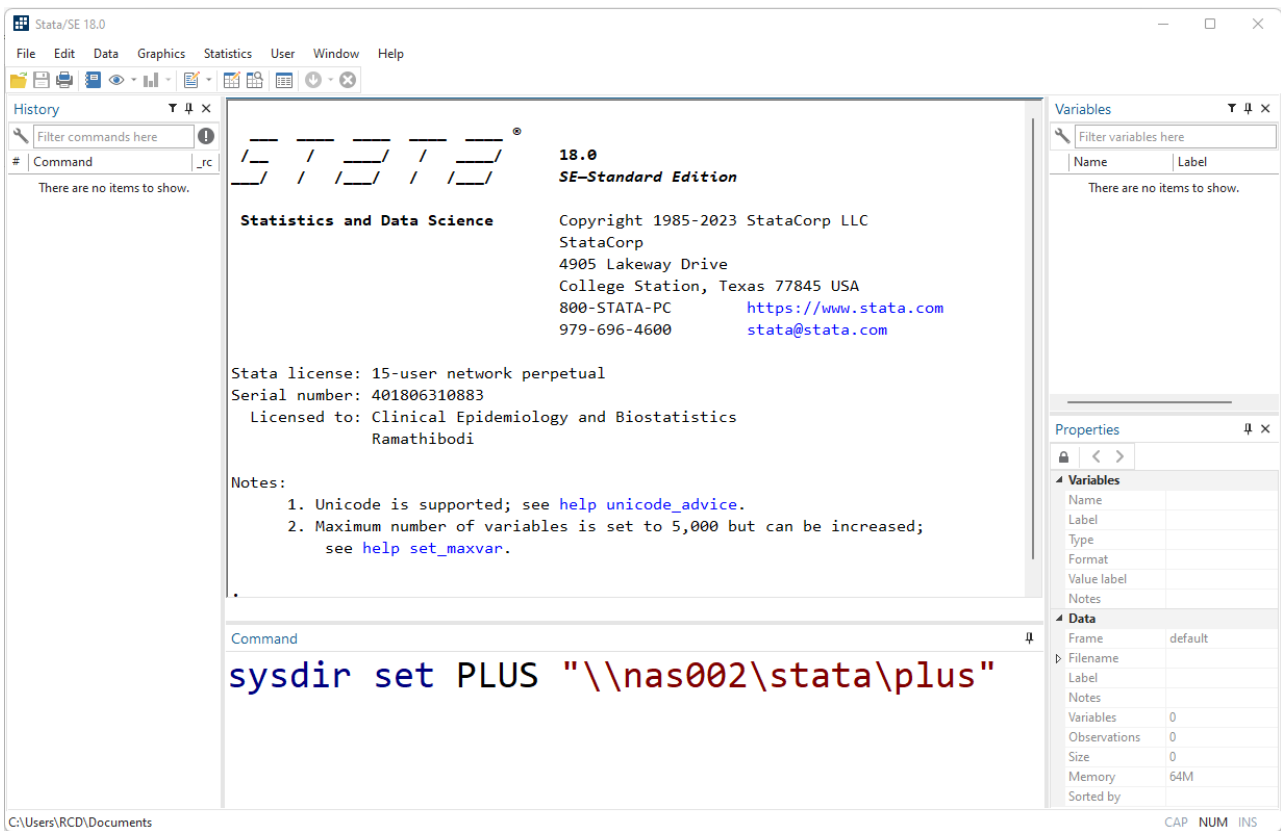

Password: **stata**

3. Double click the icon StataSE to use the STATA program

4. Type **sysdir set PLUS "\nas002\stata\plus"**, then Enter

The screenshot shows the Stata/SE 18.0 software interface. The main window displays the Stata logo and the following text:

18.0
SE-Standard Edition

Stata license: 15-user network perpetual
Serial number: 401806310883
Licensed to: Clinical Epidemiology and Biostatistics
Ramathibodi

Notes:
1. Unicode is supported; see [help unicode_advice](#).
2. Maximum number of variables is set to 5,000 but can be increased;
see [help set_maxvar](#).

The Command window at the bottom contains the command: `sysdir set PLUS "\nas002\stata\plus"`

The interface also includes a History window on the left and a Variables/Properties window on the right, both of which are currently empty.

5. Then you can run STATA command
