Academic staff promotion

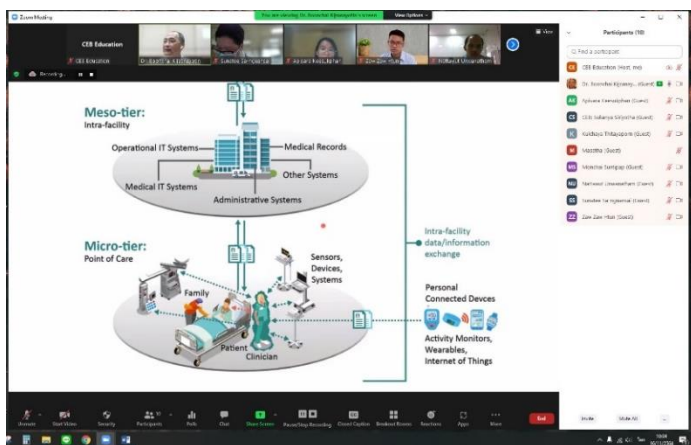

This year two of our lecturers got promoted as follows: Assoc. Prof. Dr. Atiporn Ingsathit is now promoted to 'Professor' position, also Dr. Kunlawat Thadanipon who is now promoted to 'Assistant Professor' position.

Transiting to online learning/activities due to COVID-19

Continuously from last year, we were still unable to conduct most of our classes and events physically due to the spread of COVID-19 in Thailand. Regardless the difficulties and transitioning to online platforms, we managed to

transit our teaching accordingly as well as ensuring that all students can cope well with all aspects. Most students could also progress well per the programs' plan.

Program Seminar of Master of Science in Medical Epidemiology (International Program) 2021

On 31st March 2021, the department arranged a seminar amidst the staff to revise our program ‘Master of Science in Medical Epidemiology (International Program)’ to match the latest epidemiology knowledge. Hence, new enrolled students will be able to research and solve the latest health problems.
