CHAYAWATCHARA THEPCHATRI

VOCAL CONSULTANT

Chayawatchara Thepchattri (Jay) is a life-long student of vocal pedagogy. Jay began his musical career at the age of 11 and was introduced to principles of singing by one of the only associates of Mr Seth Riggs (Michael Jackson's personal voice trainer), Mr Rodj Dullapan, in Thailand. By the age of 18, Jay was fascinated by the amount of techniques he acquired towards the improvement of his voice. He began his voice consulting career as a pre-certified instructor before becoming certified a year later. He then pursued to join various different organizations to further his knowledge. Jay later became a member of the Institute for Vocal Advancement (IVA) and achieved another certification. He was then invited to become an area representative of the same organization in Thailand until 2018. Jay's academic career started out at Berklee College of Music in Boston, where he received his Bachelor of Music degree in Professional Music, concentrating in song writing. Jay had always been passionate about the science of voice, and sought to understand the anatomical and acoustical aspects of vocal production.

With 14 years of experience he has worked with multiple academic institutions and has attended multiple vocal seminars held by leading vocal scientists. He has also been personally mentored by some of the Twenty-first Century's greatest voice teachers, vocologists, voice scientists, and researchers: Ingo R. Titze, Kenneth Bozeman, and Wolfgang Saus.

Jay now works at J-Studio, a business that he founded out of passion, where he gives voice consultations, workshop events, and masterclasses to students, teachers, diplomats, doctors, and cooperates. Jay currently dedicates all his research and passion to sharing his musical knowledge to the world. He is constantly looking for new and innovative ways to collaborate so that he can help others follow their dream.
