By signing this form, I understand that receiving a result indicating low risk of being a carrier is no guarantee that I am not a carrier of these disorders, as not all mutations can be detected, and all pathology tests have biological limitations. I understand that being a high-risk carrier increases the likelihood of passing on these genes to my offspring but that it is not guaranteed and, without a partner's test results, may be difficult to interpret. I also understand that genetic counselling may be recommended if I am shown to be a carrier.
