

# CONTENTS

## Section 1: Cell Physiology, Fluid Homeostasis, and Membrane Transport

1. The Cell and Fluid Homeostasis . . . . .	2
2. Membrane Transport . . . . .	12
<b>Section 1 Review Questions . . . . .</b>	<b>21</b>

## Section 2: The Nervous System and Muscle

3. Nerve and Muscle Physiology . . . . .	24
4. Organization and General Functions of the Nervous System . . . . .	48
5. Sensory Physiology . . . . .	57
6. The Somatic Motor System . . . . .	74
7. The Autonomic Nervous System . . . . .	84
<b>Section 2 Review Questions . . . . .</b>	<b>90</b>

## Section 3: Cardiovascular Physiology

8. The Blood . . . . .	94
9. Overview of the Heart and Circulation . . . . .	101
10. Cardiac Electrophysiology . . . . .	105
11. Flow, Pressure, and Resistance . . . . .	112
12. The Cardiac Pump . . . . .	118
13. The Peripheral Circulation . . . . .	130
<b>Section 3 Review Questions . . . . .</b>	<b>148</b>

## Section 4: Respiratory Physiology

14. Pulmonary Ventilation and Perfusion and Diffusion of Gases . . . . .	152
15. The Mechanics of Breathing . . . . .	169

16. Oxygen and Carbon Dioxide Transport and Control of Respiration . . . . .	185
<b>Section 4 Review Questions . . . . .</b>	<b>198</b>

### Section 5: Renal Physiology

17. Overview, Glomerular Filtration, and Renal Clearance . . . . .	202
18. Renal Transport Processes . . . . .	214
19. Urine Concentration and Dilution Mechanisms . . . . .	224
20. Regulation of Extracellular Fluid Volume and Osmolarity . . . . .	231
21. Regulation of Acid-Base Balance by the Kidneys . . . . .	237
<b>Section 5 Review Questions . . . . .</b>	<b>245</b>

### Section 6: Gastrointestinal Physiology

22. Overview of the Gastrointestinal Tract . . . . .	250
23. Motility Through the Gastrointestinal Tract . . . . .	260
24. Gastrointestinal Secretions . . . . .	280
25. Hepatobiliary Function . . . . .	293
26. Digestion and Absorption . . . . .	300
<b>Section 6 Review Questions . . . . .</b>	<b>310</b>

### Section 7: Endocrine Physiology

27. General Principles of Endocrinology and Pituitary and Hypothalamic Hormones . . . . .	314
28. Thyroid Hormones . . . . .	328
29. Adrenal Hormones . . . . .	335
30. The Endocrine Pancreas . . . . .	346
31. Calcium-Regulating Hormones . . . . .	354
32. Hormones of the Reproductive System . . . . .	362
<b>Section 7 Review Questions . . . . .</b>	<b>374</b>

<b>Answers . . . . .</b>	<b>377</b>
<b>Index . . . . .</b>	<b>385</b>
