1	Introduction to the OSCE	1
1.0	Introduction to the book	3
1.1	What is an OSCE?	4
1.2	How to get the most from this book	5
1.3	General tips for OSCE candidates	8
1.4	Specimen OSCEs	10
1.5	Sample mark-sheet and summary of learning sheet	11
2	History taking	15
2.0	Introduction to history taking in OSCEs	17
2.1	Chest pain	20
2.2	A breathless young woman	24
2.3	Persistent diarrhoea	29
2.4	Abdominal pain	33
2.5	Collapse	37
2.6	Back pain	41
2.7	Vaginal bleeding	45
2.8	An unwell child	50
2.9	A child with breathing problems	55
2.10	Persistent low mood	59
2.11	An injury whilst drunk	64
3	Physical examination	69
3.0	Introduction to examination skills	71
3.1	Examining the patient with a murmur	72
3.2	Peripheral arterial examination	77
3.3	Examining the breathless patient	81
3.4	Examining a lump in the scrotum	86
3.5	Examining the patient with liver disease	90
3.6	Assessing a stoma	94
3.7	Examining vision	97
3.8	Lower limb sensory examination	101
3.9	Limb weakness	106
3.10	The patient with a tremor	111
3.11	Thyroid status and neck examination	115
3.12	Examination of the hands	121
3.13	Knee examination	125
3.14	Shoulder examination	129
3.15	Obstetric examination	133
3.16	Newborn examination	138
3.17	Examination of a child with lymphadenopathy	143
3.18	Testing cognitive function	147
3.19	Breast lump examination	150

4	Practical skills	155
4.0	Introduction to practical skills	157
4.1	Recording an ECG	158
4.2	Inserting an intravenous cannula	163
4.3	Arterial blood gas sampling	168
4.4	Capillary blood glucose measurement	172
4.5	Urinary catheter insertion	176
4.6	Speculum examination	180
4.7	Suturing a wound	184
4.8	Adult basic life support	189
4.9	Death verification	193
5	Ethics, communication and explanation	197
5.0	Introduction to ethics, communication and explanation	199
5.1	Explaining inhaler technique	200
5.2	Obtaining consent for gastroscopy	205
5.3	Driving and epilepsy	208
5.4	Explaining a new diagnosis of type 2 diabetes	212
5.5	Explaining results of a cervical smear test	216
5.6	Discussing non-accidental injury (NAI) with a parent	221
5.7	Assessing a patient's capacity	225
5.8	Discussing starting an SSRI	229
5.9	Breaking bad news	235
5.10	Discussing a 'do not resuscitate' decision	240
5.11	Speaking to a dissatisfied relative	245
5.12	A colleague who drinks too much	249
6	Prescribing and handover	253
6.0	Introduction to prescribing and handover	255
6.1	Prescribing antibiotics	256
6.2	Medication review	260
6.3	Prescribing postoperative fluids	264
6.4	Prescribing insulin	269
6.5	Prescribing analgesia	274
6.6	Handover of two patients	278
6.7	Referring a patient	281
7	Recognising and managing acutely unwell patients	285
7.0	Introduction to assessing acutely unwell patients	287
7.1	Acute management of chest pain	288
7.2	Acute management of breathlessness (1)	293
7.3	Acute management of breathlessness (2)	297
7.4	Acute management of abdominal pain	302
7.5	Acute management of a diabetic emergency	306
7.6	Acute management of sepsis	311
7.7	Acute management of postpartum bleeding	316
7.8	Acute management of an unwell child	320
