## Pattern-Based Approach to Diagnosis xvii

Gene P. Siegal, MD, PhD, and Andrea T. Deyrup, MD, PhD

### SECTION I THE BASICS 1

- 1 Normal Bone Anatomy 3**  
Michael J. Klein, MD
- 2 Patterns in Radiology 23**  
D. Lee Bennett, MD, and Georges Y. El-Khoury, MD
- 3 Clinical Patterns of Orthopedic Disease 35**  
Kevin B. Jones, MD, and Joseph A. Buckwalter, MD
- 4 Patterns of Diagnostic Evaluation 49**  
Michael J. Klein, MD

### SECTION II LESIONS CHARACTERIZED PRIMARILY BY OSTEOID MATRIX PRODUCTION 65

- 5 Lesions Characterized by Osteoid Deposition and Nonaggressive Radiology 67**  
Luminita Rezeanu, MD
- 6 Lesions Characterized by Osteoid Deposition and Aggressive Radiology Located within Bone 85**  
Anthony Montag, MD
- 7 Lesions Characterized by Osteoid Deposition and Nonaggressive Radiology Located on Bone Surface 103**  
Shi Wei, MD, PhD
- 8 Juxtacortical Lesions 111**  
Anthony Montag, MD

### SECTION III LESIONS CHARACTERIZED PRIMARILY BY CARTILAGE MATRIX PRODUCTION 125

- 9 Lesions Characterized by Cartilage Deposition and Nonaggressive/Intermediate Radiology 127**  
Yong-Koo Park, MD, PhD
- 10 Lesions Characterized by Cartilage Deposition and Aggressive Radiology 141**  
Andrea T. Deyrup, MD, PhD

### SECTION IV OTHER LESIONS 151

- 11 Lesions Characterized by Large Numbers of Giant Cells Replacing Trabecular Bone 153**  
Edward F. McCarthy, MD
- 12 Lesions Characterized by a Fibrous Spindle Cell Proliferation Replacing Trabecular Bone 161**  
Benjamin Hoch, MD, and Francis H. Gannon, MD
- 13 Vascular Tumors of Bone 187**  
Wendong Yu, MD, PhD, Sathiyamoorthy Selvarajan, MBBS, PGDCP, and Andrew E. Rosenberg, MD
- 14 Lesions Characterized by Permeation of Cells through Trabecular Bone with or without Bone Destruction 205**  
M. John Hicks, MD, DDS, PhD
- 15 Cystic Lesions in Bone 229**  
Yong-Koo Park, MD, PhD
- 16 "Soft Tissue" Tumors of Bone, Avascular Necrosis and Bone Infarct, and Paget Disease 237**  
Shadi A. Qasem, MD
- 17 Metastases to Bone 255**  
Julie C. Fanburg-Smith, MD, Michael E. Mulligan, MD, and Mark D. Murphey, MD
- 18 Notochordal and Related Lesions 275**  
Karen J. Fritchie, MD, and Carrie Y. Inwards, MD

### SECTION V LESIONS OF JOINTS/SYNOVIUM 287

- 19 Degenerative Joint Disease 289**  
Meera R. Hameed, MD
- 20 Crystal Arthropathies 303**  
Edward F. DiCarlo, MD
- 21 Joint-Associated Lesions 313**  
Andrea T. Deyrup, MD, PhD
