Foreword vii

Preface ix

Acknowledgments xi

1. DIAGNOSIS OF BONE TUMORS: RADIOLOGIC AND PATHOLOGIC APPROACH 1

Radiology 1

Conventional Radiography 2

Site of the Lesion 2

Borders of the Lesion 3

Type of Bone Destruction 6

Periosteal Reaction 7

Soft-Tissue Mass 8

Composition of Tumor Tissue (Type of Lesion Matrix) 11

Benign versus Malignant Nature 12

Computed Tomography and Magnetic Resonance Imaging 12

Scintigraphy (Radionuclide Bone Scan) 17

Positron Emission Tomography, PET-CT, and PET-MRI 18

Pathology 20

Basic Techniques and Decalcification 20

Special Stains 21

Immunohistochemistry 23

Antibodies against Intermediate Filaments 23

Antibodies against Hematopoietic and Lymphoid Cells, and

Vascular Antigens 25

Antibodies against Muscle and Neuroectodermal

Antigens 25

Other Useful Antibodies in Bone Tumor Pathology 26

Electron Microscopy 27

Genetics of Bone Tumors 27

Cytogenetics 27

Molecular Cytogenetics 28

References 29

2. BONE-FORMING (OSTEOGENIC) LESIONS 32

A. Benign Bone-Forming Lesions 32

Osteoma 32

Osteoid Osteoma 35

Osteoblastoma 40

B. Malignant Bone-Forming Tumors 47

Osteosarcomas 47

Conventional Osteosarcoma 47

Telangiectatic Osteosarcoma 61

Small Cell Osteosarcoma 64

Low-Grade Central Osteosarcoma 66

Giant Cell-Rich Osteosarcoma 68

Multifocal (Multicentric) Osteosarcoma 68

Surface Osteosarcomas 69

Secondary Osteosarcomas 78

Postradiation Osteosarcoma 78

Paget Osteosarcoma 79

Osteosarcoma Associated with Fibrous Dysplasia 79

Soft-Tissue (Extraskeletal) Osteosarcoma 81

References 86

3. CARTILAGE-FORMING (CHONDROGENIC) LESIONS 90

A. Benign Cartilage-Forming Lesions 90

Enchondroma 90

Enchondromatosis, Ollier Disease, and Maffucci Syndrome 97

Periosteal (Juxtacortical) Chondroma 99

Soft-Tissue Chondroma 104

Synovial (Osteo) Chondromatosis 107

Osteochondroma (Osteocartilaginous Exostosis) 114

Multiple Hereditary Osteochondromata (Diaphyseal

Aclasis) 121

Chondroblastoma 124

Chondromyxoid Fibroma 134

B. Malignant Cartilage-Forming Tumors 138

Chondrosarcomas 138

Conventional Chondrosarcoma (Central or Medullary Chondrosarcoma) 139

Clear Cell Chondrosarcoma 145

Mesenchymal Chondrosarcoma 152

Myxoid Chondrosarcoma (Chordoid Sarcoma) 157

Dedifferentiated Chondrosarcoma 157

Periosteal (Juxtacortical) Chondrosarcoma 164

Soft-Tissue (Extraskeletal) Chondrosarcomas 169

Secondary Chondrosarcomas 171

Malignant Transformation of Osteochondroma 171

Malignant Transformation of Enchondroma 171

Chondrosarcoma Arising in Primary

(Osteo) Chondromatosis 175

Chondrosarcoma Arising in Pagetic Bone 175

References 175

4. FIBROGENIC, FIBRO-OSSEOUS, AND FIBROHISTIOCYTIC LESIONS 180

A. Benign Fibrous Lesions 181

Fibrous Cortical Defect/Nonossifying Fibroma 181

Benign Fibrous Histiocytoma 189

Periosteal Desmoid (Cortical Desmoid) 192

Fibrous Dysplasia 194

Fibrocartilaginous Dysplasia 197

Osteofibrous Dysplasia (Kempson-Campanacci Lesion) 206

Desmoplastic Fibroma (Desmoid Tumor of Bone) 210

B. Malignant Fibrohistiocytic Tumors 218

Fibrosarcoma 218

Malignant Fibrous Histiocytoma (Pleomorphic

Undifferentiated Sarcoma) 221

Angiomatoid Fibrous Histiocytoma of Bone 223

References 226

5. ROUND CELL LESIONS 230

A. Benign Round Cell Lesions 231

Langerhans Cell Histiocytosis (LCH, Eosinophilic Granuloma) 231

Rosai-Dorfman Disease 241

Erdheim-Chester Disease (Lipogranulomatosis) 242

B. Malignant Round Cell Tumors 244

- Ewing Sarcoma/Primitive Neuroectodermal Tumor (PNET) 244
- Malignant Lymphoma of Bone 254
- Multiple Myeloma (Plasma Cell Myeloma, Plasmacytoma) 263

References 269

6. VASCULAR LESIONS 272

A. Benign Vascular Lesions 273

- Intraosseous Hemangioma 273
- Epithelioid Hemangioma (Angiolymphoid Hyperplasia with Eosinophilia) 282
- Cystic Angiomatosis 282
- Gorham Disease (Disappearing Bone Disease, Massive Osteolysis) 284
- Synovial Hemangioma 285
- Lymphangioma, Lymphangiomatosis of Bone 285
- Glomus Tumor 289
- Variants of Glomus Tumor* 290

B. Malignant Vascular Tumors 290

- Epithelioid Hemangioendothelioma 290
- Angiosarcoma 293

References 295

7. MISCELLANEOUS LESIONS 298

A. Benign Lesions 298

- Giant Cell Tumor (GCT) 298
- Simple Bone Cyst (SBC) 309
- Aneurysmal Bone Cyst (ABC) 311
- Giant Cell Reparative Granuloma (GCRG, Solid Variant of ABC) 323
- Intraosseous Lipoma 330

B. Malignant Tumors 334

- Adamantinoma of Long Bones 334
- Chordoma 339
- Leiomyosarcoma of Bone 344
- Liposarcoma of Bone 347

References 348

8. TUMORS AND TUMOR-LIKE LESIONS OF THE JOINTS 353

A. Benign Joint Lesions 353

- Synovial (Osteo)Chondromatosis 353
- Pigmented Villonodular Synovitis (PVNS, Diffuse-Type Tenosynovial Giant Cell Tumor) 353
- Localized Pigmented Nodular Tenosynovitis (Giant Cell Tumor of the Tendon Sheath, Localized Tenosynovial Giant Cell Tumor) 359
- Synovial Hemangioma 362
- Lipoma Arborescens 364
- Juxta-Articular Myxoma 366

B. Malignant Joint Tumors 369

- Synovial Sarcoma 369
- Synovial Chondrosarcoma 377

References 377

9. OSSEOUS METASTASES 381

Skeletal Metastases 382

References 397

10. MOCK-BOARD REVIEW QUESTIONS 399

Index 427
