Series editor foreword	v	6. An acute hot swollen joint	41
Preface	vi	Differential diagnosis	41
Acknowledgements	vii	History focusing on the acute hot swollen joint	41
Dedications	viii	Examination of a patient with an acute hot swollen joint	43
1. Taking a history	1	Investigation of a patient with an acute swollen joint	43
Presenting complaint	1	7. A child with a limp	45
History of the presenting complaint	1	Differential diagnosis	45
Past medical history	2	History focusing on the child with a limp	45
Drug history	2	Examining a child with a limp	46
Social history	2	Investigating a child with a limp	47
Family history	2	8. A swelling.	49
Systemic enquiry	2	Differential diagnosis	49
2. Examining joints.	3	History focusing on a swelling	49
General principles	3	Examination focusing on a swelling	50
Clinical examining	3	Investigation of a patient with a swelling	50
Examination of the hip	4	9. Back pain	53
Examination of the knee	6	Differential diagnosis	53
Examination of the ankle and foot.	8	Examination focusing on back and leg pain	53
Examination of the spine	10	Investigation of a patient with back pain	54
Examination of the shoulder	11	Mechanical low back pain	54
Examination of the elbow.	13	Prolapsed intervertebral disc	57
Examination of the wrist and hand	14	Spondylolisthesis	59
3. Investigations	17	Spinal stenosis	60
Blood tests	17	Discitis/vertebral osteomyelitis	61
Synovial fluid analysis	19	Scoliosis	62
Nerve conduction studies (NCS) and electromyography (EMG)	19	10. Altered sensation and weakness	65
Biopsy.	19	Differential diagnosis	65
Imaging	19	History	65
4. Regional pain	23	Carpal tunnel syndrome	66
Back, hip and leg pain	23	Ulnar nerve entrapment	67
Knee pain	26	Radial nerve injuries	68
Ankle and foot pain	27	Common peroneal nerve injuries	68
Neck and/or upper-limb pain	30		
5. Widespread musculoskeletal pain.	35		
Differential diagnosis	35		
Paraneoplastic rheumatic syndrome	35		
Fibromyalgia.	36		

11. Osteoarthritis	69	17. Paediatric joint disease.	119
Definition	69	Normal variants	119
Incidence	69	Paediatric hip disorders	120
Pathology and aetiology	69	Congenital talipes equinovarus (clubfoot)	123
Clinical features	69	Osteogenesis imperfecta	123
Diagnosis and investigation	71	Cerebral palsy	124
Management	71	Non-accidental injury	124
12. Rheumatoid arthritis	75	Paediatric knee conditions	125
Definition	75	Juvenile idiopathic arthritis	126
Incidence and prevalence	75	18. Fractures	129
Aetiology	75	Incidence	129
Genetic factors	75	Definitions	129
Environmental factors	75	Clinical features	129
Immunological abnormalities	75	Diagnosis and investigation	130
Pathology	76	Management	131
Clinical features	77	Complications of fractures	133
Articular features of RA	77	Common fractures	135
Extra-articular features of RA	79	19. Trauma	139
Systemic features of RA	79	Definition	139
The effects of RA on distant organs	79	Incidence	139
Investigations	80	Clinical features	139
Radiological investigations	81	Investigations	140
Management	81	Treatment	141
Drug treatment	81	Open fractures	141
13. Spondyloarthropathies	85	Spinal injuries	141
Ankylosing spondylitis	85	Pelvic fractures	142
Psoriatic arthropathy	88	20. Infection of bones and joints	145
Reactive arthritis	90	Osteomyelitis	145
Enteropathic arthritis	91	Septic arthritis	148
14. Connective tissue diseases	93	Tuberculosis	149
Systemic lupus erythematosus	93	21. Principles of orthopaedic surgery	151
The antiphospholipid syndrome	96	Preoperative assessment	151
Sjögren syndrome	97	Immediate preoperative care	152
Polymyositis and dermatomyositis	99	Surgery	152
Systemic sclerosis	101	Postoperative care	154
The vasculitides	103	Complications	154
15. Metabolic bone disease	107	Infection	156
Osteoporosis	107	Shock	158
Paget disease	110	22. Malignancy	161
Rickets and osteomalacia	111	History	161
16. Gout and pseudogout	113	Examination	162
Gout	113	Investigation	162
Calcium pyrophosphate dihydrate disease	116	Primary bone tumours	165

Secondary bone tumours	168	Bursitis	182
Haemopoietic diseases	171	Dupuytren contracture	183
Leukaemia	171		
23. Sports injuries	173	Self-assessment	185
Knee injuries	173	Single best answer questions (SBAs)	187
Shoulder dislocation	178	Extended matching questions (EMQs)	195
Ankle sprain	179	SBA answers	207
24. Soft-tissue disorders	181	EMQ answers	211
Introduction	181	Glossary	219
Tendon lesions	181	Index	221
