Preface	vii
Acknowledgements	ix
1 Principles of abdominal examination: during pregnancy and labour.....	1
2 Principles of abdominal examination: during the postnatal period	20
3 Assessment of maternal and neonatal vital signs: temperature measurement.....	25
4 Assessment of maternal and neonatal vital signs: pulse measurement	39
5 Assessment of maternal and neonatal vital signs: blood pressure measurement.....	46
6 Assessment of maternal and neonatal vital signs: respiration	61
7 Assessment of maternal and neonatal vital signs: neurological assessment	70
8 Principles of infection control: standard precautions.....	75
9 Principles of infection control: hand hygiene.....	81
10 Principles of infection control: principles of asepsis.....	88
11 Principles of infection control: obtaining swabs.....	93
12 Principles of hygiene needs: for the woman	98
13 Principles of hygiene needs: for the baby	103
14 Principles of elimination management: micturition and catheterization	116
15 Principles of elimination management: urinalysis	127
16 Principles of elimination management: defaecation.....	132
17 Principles of elimination management: obtaining urinary and stool specimens.....	137
18 Principles of drug administration: legal aspects, pharmacokinetics and anaphylaxis.....	143
19 Principles of drug administration: oral administration.....	154
20 Principles of drug administration: injection technique	158
21 Principles of drug administration: administration of medicines <i>per vaginam</i>	167
22 Principles of drug administration: administration of medicines per rectum.....	171
23 Principles of drug administration: intravenous drug administration	175
24 Principles of drug administration: inhalational analgesia: Entonox.....	182
25 Principles of drug administration: epidural analgesia	186
26 Principles of drug administration: transcutaneous electrical nerve stimulation.....	200
27 Facilitation of skills related to childbearing: optimal fetal positioning.....	204
28 Facilitation of skills related to childbearing: Cusco speculum use	210
29 Facilitation of skills related to childbearing: membrane sweep	214
30 Principles of intrapartum skills: first-stage issues.....	217
31 Principles of intrapartum skills: second-stage issues.....	231

Contents

32	Principles of intrapartum skills: third-stage issues	244	46	Principles of phlebotomy and intravenous therapy: maternal venepuncture	346
33	Principles of intrapartum skills: examination of the placenta	260	47	Principles of phlebotomy and intravenous therapy: intravenous cannulation	351
34	Principles of intrapartum skills: perineal repair.....	267	48	Principles of phlebotomy and intravenous therapy: intravenous infusion.....	358
35	Principles of intrapartum skills: management of birth at home	279	49	Principles of phlebotomy and intravenous infusion: blood transfusion	367
36	Principles of intrapartum skills: management of labour and birth in water.....	286	50	Principles of manual handling	373
37	Assessment of the baby: assessment at birth ...	292	51	Principles of perioperative skills.....	382
38	Assessment of the baby: daily examination.....	301	52	Principles of wound management: healing and care	390
39	Assessment of the baby: capillary sampling	307	53	Principles of restricted mobility management: pressure area care	400
40	Assessment of the baby: developmental dysplasia of the hips	313	54	Principles of restricted mobility management: prevention of venous thromboembolism.....	408
41	Principles of infant nutrition: breastfeeding	321	55	Principles of cardiopulmonary resuscitation: maternal resuscitation.....	417
42	Principles of infant nutrition: cup feeding.....	328	56	Principles of cardiopulmonary resuscitation: neonatal resuscitation	429
43	Principles of infant nutrition: decontamination of feeding equipment.....	331	Glossary	443	
44	Principles of infant nutrition: formula feeding	335	Index	446	
45	Principles of infant nutrition: nasogastric feeding.....	340
